

*Dear Capezio,*

*We are very pleased with the work done on our house by your company. Capezio was recommended when I called our Insurance Carrier's emergency number late night after suffering from the storm damage. From the start Capezio was responsive, professional and very helpful through every phase of the reconstruction. I got a call back within a few minutes from your emergency call line and had an appointment set up the next morning for a preliminary assessment and stop gap measures to brace the wall and plug the hole in the roof until Capezio's Estimator & our Insurance Representative could do their appraisal and set up the work schedule.*

*Alan Sadowski was so capable and so helpful; he gave us the confidence that everything would be fine in the end and he was right. Alan kept us apprised of the work schedule and what to expect at each stage of the job. He was very responsive to all of my calls and emails when we had questions. The carpenters, painters, etc. were also excellent. We were away for several weeks during the renovation, but Alan kept us up to date on the progress. The finished product shows the excellence of the workers and subcontractors you provided for our job.*

*We had never heard of Capezio, so it was a leap of faith to go with them for such an important job but, our Claims Adjuster said we would be happy with your work and we are. We are grateful to them for recommending Capezio and to everyone who helped rebuild our house and make it "good as new"!!*

*Baltimore, MD*
